

### Assignment -3

Aim - Decide your problem

Name – Shivraj Nakum , 21BCP125

**Q1-** Select a domain

**Ans-1** Restaurant management (a chain of restaurant franchise)

**Q2-** Select a problem

**Ans-2** In a chain of restaurant the main problem is when ever a new category is added to the menu it's recipe has to be uniform in all the outlet of the franchise .

**Q3** - Motivation behind selecting that problem (why?)

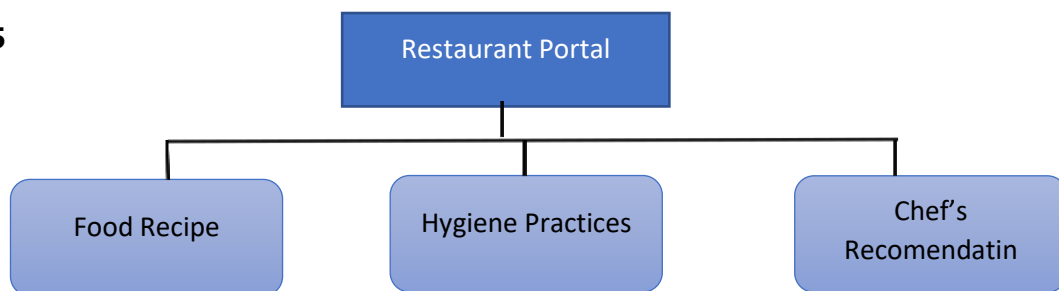

**Ans-3** I am a fodiie and this interest in food lead me to think about a food portal so consumer gets tasty and delicious food throught the outlets.

**Q4-** who will be user once you create that product

**Ans-4** It would be the internal staff of the restaurant that would have access to this portal to maintain uniformity and best practices in making food.

**Q5-** Divide your problem into modules -- MAKE DIAGRAM

**Ans-5**

**Q6-** Took any submodule and create classes

**Ans-6** Food Recipe – pizza , burger, sandwich..... etc.
